*We would like to thank you for the wonderful job you did helping getting us through our home refinance. We tried with large banks and waited 3 months with no results. Our interim construction loan was due to mature soon and we were fearful that we would not get the permanent loan in place before the dead line.*

*This was not an easy loan due to the unexpected liens that appeared against the property and also the errors that showed up on credit report. You worked through the obstacles and were able to resolve them in a timely matter.*

*Despite the complications and the difficulties the banks place before you to get a mortgage these days we were able to close on our loan with a great rate within 3 weeks of our application. This is a task that is unheard of in this market.*

*Thanks to your hard work, dedication, and willingness to go beyond the normal scope of work on our behalf, we now have our life back and I can sleep at night once again.*

*I will definitely refer your services to all my friends and family.*

*Brian and Melissa Reynolds, McKinney Texas*
